

Striker Platinum Perennial Ryegrass

Elite sports surfaces

Composition

- Barolympic ryegrass
- Premier 3 ryegrass

Sowing rate

- 3-5kg/100m²

Suitable for

- Oversowing warm season couch grass or kikuyu fields
- Pure ryegrass fields
- Football/soccer/rugby and school fields in Australia and NZ
- Golf tees

Striker Platinum is an ultrafine perennial ryegrass blend that sets a new standard in superior performance for sports fields. A mix of two of Barenbrug's finest – Barolympic and Premier 3, Striker Platinum has fast germination and produces a very fine, dense turf for close-mowing and high wear situations.

Striker Platinum suits all temperate and sub-tropical regions of Australia. This mix performs best on well drained, fertile, soils and is suitable for oversowing couch grass providing good seed to soil contact. This strong performing ryegrass mix makes it suitable for long term turf surfaces and summer cricket events with irrigation. With extreme density, winter growth, and winter wear you can relax knowing you can grow with confidence.

Key features

- Superb fast germination (faster than Mediterranean) and winter growth)
- Extreme density and fineness of leaf to wear tolerance and aesthetics
- Excellent disease and heat tolerance

Key benefits

- Handles both northern and southern climates
- Fast shoot recovery after damage

"I have been using Naturf/Barenbrug seed for many years as a Grounds Manager at multiple elite sports venues. In prior venues with challenging schedules and intense usage, I have needed rye grasses that performed consistently with good durability in the South East Queensland climate. Premier 3 seed became my go-to choice for its fast germination, great colour, excellent disease resistance and the quality winter surface it produces.

In my current role as Grounds Manager at Suncorp Stadium, I continue to need high quality, reliable rye grass options for the multiple sporting codes we cater for. When preparing our surfaces for the 2023 Women's World Cup matches, we once again looked to Naturf/Barenbrug seeds to meet FIFA's very high standards. My strong history with Premier 3 encouraged me to look at Striker Platinum as a further step up in the surface quality – and it proved absolutely outstanding."

Matt Oliver – Grounds Manager, Suncorp Stadium
